

## Kitchen Project Supervision

- ✓ Here's what we can do for you:
- ❖ Coordination with General Contractor regarding full implementation of approved kitchen design and layout to ensure that related plumbing, electrical, mechanical, gas utilities and architectural requirements by each equipment are fully executed and implemented as per approved kitchen design by the Owner.
- ❖ Coordination with various kitchen equipment suppliers to ensure on time delivery, installation, testing and commissioning.
- ❖ Verification of equipment delivered on-site to ensure that specifications are in accordance with the contract.
- ❖ Other related requests mutually agreed between Professional Kitchen Solutions and the Owner.
